TIMELINE

- 1995 • My sister told me I should major in graphic design due to my involvement in art classes and my creativity. Sounded like a good idea for a high school grad!
- 1999 • Graduated from James Madison University with a BS in Media Art and Design and a minor in Advertising.

Began working as a graphic designer for The Salvation Army National HQ in Alexandria, VA. (Aug 99-June 2000)

- 2005 • Finally decided to fulfill a dream and moved to Playa del Carmen, Mexico. Continued to freelance for clients in the US and Mexico and also taught English part-time to kids.
- 2007 • After falling for a tourist over a year before, moved to Iowa to end the long distance dating. (FYI...he's now my husband ♥)

Began working for Wellmark Blue Cross and Blue Shield as a graphic designer in Des Moines, IA. (Sept 07-current)
- 2008 • Additional training including: HTML 1 and HTML 2, CSS, Java
